DETAILED ACTION

1. This application claims benefit of the provisional application: 60/180,841 with a filing date 02/07, 2000.
2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 05, 2005, has been entered.
3. Applicant's arguments filed on May 05, 2005, are acknowledged. Claims 1-60 are pending in the application.

Responses to Arguments

4. Applicant's arguments regarding new matter of claim 1 filed on May 05, 2005, have been fully considered and they are persuasive. Therefore, objection of claim 1 having new matter is withdrawn herein.
5. Applicant's arguments regarding rejection of claims 1-22 and 38-58 under 35 U.S.C. 103(a) over Das et al. US 2002/0123484 A1 filed on May 05, 2005, have been fully considered but they are not persuasive. Applicants still claim instant compounds of formula (I), variable Q represents hydrogen; the variable Y represents S; the variable W represent H, Cl, NO₂, substituted alkyl; the variable X¹ represent hydrogen or alkyl; the variable R³ represents hydrogen, or alkyl; R¹ and R² independently represent hydrogen

Art Unit: 1626

or optionally substituted alkylamino, alkyl, amino, NHX^3 , or NX^3X^3 , and X^3 represents hydrogen, alkyl, or aryl. It is noted that the alkyl moiety of substituent alkylamino, amino, NHX^3 , or NX^3X^3 (i.e., X^3 represents hydrogen, alkyl, or aryl) is linked to the instant phenyl moiety of benzithiazole. Therefore, instant claimed compounds of formula (I) still render obviousness of Das et al., rejection of claim 1-22, and 38-58 under 35 U.S.C. 103(a) over Das et al. US 2002/0123484 A1, is maintained, see columns 18-19. It is suggested that limitation of instant variable R^1 or R^2 of formula (I), wherein the alkyl moiety of substituent alkylamino, amino, NHX^3 , or NX^3X^3 is not directly linked to the phenyl moiety of benzothiazole of formula (I), would obviate the rejection.

Objection

6. Claims 1-22, and 38-58 are objected to as containing non-elected subject matter heteroaryl or heterocycle, i.e., pyridyl, triazole, furanyl, imidazole, morpholine, pyrrolidine, etc. It is suggested that applicants amend the claims to the scope of the elected subject matter set forth in the paragraph four of the Office action, dated June 22, 2004. Moreover, claims 23-37 and 59-60 are objected to as being non-elected inventions. Elimination of claims 23-37 and 59-60 would obviate the objection.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1626

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
